To whom it may concern:

Date: May 3rd, 2022

Compass IT Compliance was contracted to conduct testing against

https://www.myassettag.com

https://www.myassettag.com/assettiger

Compass tested the applications manually and employed the use of scanners to identify vulnerabilities. For manual testing, Compass utilizes the Open Web Application Security Project (OWASP) testing methodology. The Open Web Application Security Project is a worldwide free and open community focused on improving the security of application software. The applications security was found to be adequate to prevent unauthorized access to systems and sensitive information. Testing was preformed by experienced testers with the following industry certifications

Offensive Security Certified Professional (OSCP)

Certified Ethical Hacker (CEH)

eLearnSecurity Certified Penetration Tester eXtreme (eCPTX)

eLearnSecurity Web application Penetration Tester eXtreme (eWPTX)

GIAC Certified Penetration Tester (GPEN)

Certified Red Team Operator (CRTO)

Sincerely,
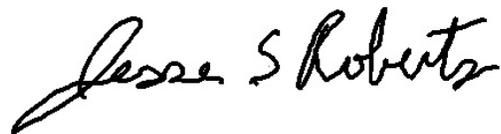

Jesse S Roberts

VP of Cyber Security

(401) 353-3024
